The following rules are established for the serving and sale of alcoholic beverages on all IIT properties, except individual living quarters:

No alcoholic beverages may be served to minors (anyone under the age of 21) at any time.

Retail alcohol is sold on Main Campus only at Center Court and University Club in the McCormick Tribune Campus Center. The only other provision for serving alcohol on campus is via the University’s sanctioned food and beverage provider, Sodexho Campus Dining Services. Sodexho will provide, at the organizer’s expense, trained bartenders for any function at which alcohol is served.

Requests to serve alcoholic beverages anywhere on campus must be approved by the dean or administrative officer who exercises authority over the group requesting alcohol service. When students are invited, the Dean of Students must also approve the request. The request will be sent to the Vice President for Business & Administration for final approval and to file. A Request to Serve Alcoholic Beverages Form (the “Form”) is available from the Campus Reservations Office, the Office of Student Affairs and the Downtown Campus’ Office of Administration and Finance. Any group desiring to serve alcohol at any IIT-sponsored event shall process the Form and receive all of the necessary approvals before advertising the event or contracting with Sodexho.

It is the responsibility of the person(s) registered as hosting the event at which alcoholic beverages are served to make certain that no alcoholic beverages are served to minors (anyone under 21) and that no one becomes unruly or intoxicated. The beverage server(s) (caterer, staff member) must be advised that underage students are at the event and that the server(s) should be sure that each person served alcohol is 21 or older by asking for the appropriate ID if the person looks younger than 30 or the serve is in any doubt. Any serious behavior problems, disturbances or property damage which may occur shall be reported immediately to the Public Safety Department and then called promptly to the attention of the appropriate dean or administrative officer and the General Counsel’s Office (risk management).
