WHAT IS A COVER LETTER?

A cover letter is a letter that should accompany each resume sent to an employer, networking contact or person assisting you with your job/internship/co-op search. Your cover letter is viewed as your first “writing sample” and should complement (not just repeat) the information on your resume.

PURPOSE OF A COVER LETTER:

- Initiate contact with:
 - o an employer to introduce yourself and inquire about job or internship possibilities
 - o an employer to apply for an actual position
 - o an alumnus, family or friend to ask for an informational interview
 - o a professor or former supervisor to request a letter of recommendation
- Capture the employer's (or reader's) interest
- Invite the recipient to read the resume in depth
- Secure an interview (for information or employment purposes)

BASIC GUIDELINES FOR YOUR COVER LETTER:

- One page
- 3-4 paragraphs
- In a standard cover letter format (see samples)
- On high-quality paper that matches your resume
- Addressed to a SPECIFIC person, rather than “To whom it may concern.” (Do your best to find out who the hiring manager is. If you cannot, address the letter to “Dear Sir or Madam” or “To the Director of Human Resources”)
- Completely error free – have The Career Management Center and your friends/family proofread the letter

STANDARD FORMAT OF THE COVER LETTER (see samples):

Your contact information

Date

Employer’s contact information

First Paragraph - Introduction: Use this paragraph to state your reason for writing and explain how you learned of the position. For example, “Please accept my enclosed resume in application for the position of Senior Analyst at Smith and Company. I learned of this opportunity through your online posting at eRecruiting.com and feel my qualifications are an excellent match for the responsibilities of the position.”

Body Paragraphs – What you can offer them: Use this paragraph to emphasize and elaborate upon your strongest qualifications and be certain to address the specific qualifications the employer may have listed in the job description. If it seems that the position requires leadership skills, be sure to highlight your own leadership skills and demonstrate how your own skills and what the employer is seeking is a good match. You may also want to address why you want to work for them: Almost every employer will ask the question, “Why are you interested in this position?” or “Why are you interested in this company?” You can explain this in your cover letter if you wish.

Last Paragraph – Closing: Generally this section is used to thank the reader for his/her consideration and request an opportunity to discuss the position further. You should also use this paragraph to indicate to the employer how he/she can reach you. Alternately, you may indicate that you will contact the employer to follow up. If you do this, make sure you actually follow up!

Dear Ms. Owen,

I am a second year MBA student with an emphasis in Market Research and Strategic Marketing at the Illinois Institute of Technology, Stuart School of Business. I am writing to apply for the position of Market Research Associate at Smith, Bucklin & Associates, which I saw posted on Career Builder (Job #4510). Through my own research, I have learned more about your expansions into the health care arena in the Chicagoland area. As I am experienced in market research practices and have a strong interest in health care, I feel confident that I would be an effective member of your team.

My experience includes working as a market research analyst at the American Red Cross of Greater Chicago where I analyzed survey data using SPSS to better understand customer needs. My analysis required running statistical tests including chi-square, regression, and t-tests. I was also involved in developing recommendations based on my data findings on how to improve programming at the Red Cross. My experiences at the Red Cross motivated me to seek out full time opportunities in the health care field where I can contribute my understanding of current market research practices. I am excited to know that you are expanding your health care practice and am eager to be a member of your team.

I have attached my resume for your review. I would appreciate the opportunity to speak with you to discuss my interests and qualifications in more detail. Please feel free to contact me via e-mail at jenniferswu@stuart.iit.edu or by phone at 312-333-4444. Thank you for your time and consideration.

Mr. John Lawrence

135 E. 57th Street
New York, NY 10022

Dear Mr. Lawrence,

I am a second year graduate student at the Illinois Institute of Technology – Stuart School of Business, pursuing an MS with an emphasis in Financial Engineering. With three years of experience as a trader and an enthusiasm for capital markets, I am confident that I would be an asset for Lynx Capital Markets.

While working at Piper Financial as a futures clerk, I assisted options traders in the process of buying and selling soybean futures. I was responsible for communicating market information from brokers to customers as well as maintaining daily records of futures positions. I found this experience to be exciting, fast-paced and dynamic. My experiences on the trading floor motivated me to pursue a Masters degree in Financial Markets. Through my coursework, I have acquired skills in regression modeling and asset valuation and have participated in mock trading simulations. I feel very certain that my skills and interests would be a good match for your trader-training program.

I have attached my resume for your review and would be interested in discussing my qualifications in more detail. I will contact you next week to see if there is a convenient time to meet in person. Please contact me at 773- 555-1212 or at tsmith@stuart.iit.edu should you have any questions about my background. I look forward to speaking with you. Thank you for your time.
