Illinois Institute of Technology

2021 Commencement Opening Ceremony

The Fifteenth of May
Two Thousand and Twenty One
Ten in the morning

Ed Kaplan Family Institute for Innovation and Tech Entrepreneurship
3137 South Federal Street
Chicago, Illinois

W

elcome to Illinois Institute of Technology's 152nd Commencement Exercise. The university community extends cordial greetings to the families and friends who are celebrating this culmination of years of formal study.

For 1,993 students, today's ceremony officially recognizes their academic accomplishments during the 2020–21 academic year and inaugurates a new era in their lives. With a broad foundation of both intellectual capability and experiential learning that characterizes an Illinois Tech education, these graduates also take with them a sound understanding of contemporary society and its values as they join thousands of other Illinois Tech alumni.

About Illinois Institute of Technology

In 1890, when advanced education was often reserved for society's elite, Chicago minister Frank Wakely Gunsaulus delivered what came to be known as the "Million Dollar Sermon" near the site Illinois Institute of Technology (Illinois Tech) now occupies. Gunsaulus said that with a million dollars he would build a school where students of all backgrounds could prepare for meaningful roles in a changing industrial society. Philip Danforth Armour, a Chicago meatpacking industrialist and grain merchant, heard the sermon and came to share the minister's vision, agreeing to finance the endeavor with the stipulation that Gunsaulus become the first president of Armour Institute.

When Armour Institute opened in 1893, it offered professional courses in engineering, chemistry, architecture, and library science. Illinois Tech was created in 1940 by the merger of Armour Institute with Lewis Institute (est. 1895), a West Side college that offered liberal arts as well as science and engineering courses. The Institute of Design, founded in 1937, merged with Illinois Tech in 1949.

In 1969, Illinois Tech became one of the few technology-based universities with a law school when Chicago-Kent College of Law, founded in 1887, became a part of the university. Stuart School of Business was added in 1969 with a gift from the estate of Lewis Institute alumnus and Chicago financier Harold Leonard Stuart. Midwest College of Engineering, founded in 1967, joined the university in 1986, forming the nucleus for Illinois Tech's west suburban campus.

Today, Illinois Institute of Technology is a private, Ph.D.-granting university with programs in engineering, science, architecture, law, human sciences, design, business, and applied technology. More than 6,342 graduate and undergraduate students study here, coming from all 50 states and Washington, D.C., Puerto Rico, and from 100 countries.

Scientists and engineers from Illinois Tech are responsible for some of the world's most important technological advances; Illinois Tech architects have shaped the skylines of cities globally; and Chicago-Kent College of Law alumni are impacting the legal system.

About Illinois Institute of Technology, continued

Three miles south of the Chicago Loop, Illinois Tech's Mies Campus was designed by renowned architect Ludwig Mies van der Rohe in 1940, and Illinois Tech's 19 Mies buildings are the highest concentration in the world. The American Institute of Architects designated Mies Campus as one of the 200 most important works of architecture in the country, and Mies' S. R. Crown Hall, which houses the College of Architecture, was granted National Historic Landmark status in 2001.

Continuing Illinois Tech's tradition of cutting-edge design, the university added two new buildings in 2003—The McCormick Tribune Campus Center, designed by Pritzker Prize-winning architect Rem Koolhaas, and the Jeanne and John Rowe Village residence hall, designed by the influential architect Helmut Jahn. The Ed Kaplan Family Institute for Innovation and Tech Entrepreneurship, designed by John Ronan, acclaimed architect and professor of architecture at Illinois Tech, opened in 2018.

Illinois Tech has three additional campuses. Conviser Law Center is home to Chicago-Kent College of Law and Stuart School of Business. Daniel F. and Ada L. Rice Campus in Wheaton, Illinois, hosts the Office of Professional Development and courses in information technology and management, engineering, and physics. Moffett Campus, in Bedford Park, Illinois, is the home of the Institute for Food Safety and Health. Illinois Tech also has state-of-the-art distance learning programs.

Academic Regalia

Much of the American academic ceremonial apparel is derived from that worn at British universities, particularly Oxford University. When Oxford was granted a charter in 1241, its members wore clerical garb because of the close connection between the university and the church. Academic apparel for colleges and universities in America was first introduced at Williams College in 1887. The Intercollegiate Commission drafted the first uniform code in 1895.

The bachelor's gown is untrimmed, with long pointed sleeves, and is worn closed. The master's gown has long, crescent-shaped sleeves and may be worn open or closed. The doctor's gown has velvet facing down the front and three velvet bars on the bell-shaped sleeves. The velvet is either black or the color of the major field of study. For years, most gowns were black, but today most American institutions have followed the British custom of using red or college colors.

The hood is the most important and distinctive feature of the American system. It was originally intended as a head cover and shoulder cape. The color of the trim indicates the degree field; for example, purple is law, orange is engineering, lavender is architecture. The length of the hood and the width of the trim indicate the degree earned, the doctor's hood being the longest and having the widest trim. The color or colors of the hood lining indicate the degree-granting institution. The Illinois Institute of Technology hood lining has the school colors, a single gray chevron on a scarlet field.

Commencement Speaker

Ankur Jain (CS '03)

Founder and Chief Executive Officer, B9 Beverages / Bira 91

Ankur Jain is the founder and chief executive officer of B9 Beverages, the maker of Bira 91 beers.

Born in New Delhi to an architect-urban planner father and an author-interior designer mother, Jain is a serial entrepreneur who moved to the United States in 1998. He completed his Bachelor of Science in Computer Science degree from Illinois Institute of Technology in 2003. After a brief stint at Motorola, Jain co-founded a health-care revenue management firm in New York that was sold to a large health-care provider network in 2007.

More importantly, during his time in New York, his startup was down the street from Brooklyn Brewery in Williamsburg, where he spent many Friday afternoons sampling a wide selection of beers. Jain then took a trip to Belgium, backpacking to villages and sampling beers in local breweries still run by families that had owned them for generations. Inspired by the American entrepreneurship in craft beer and the love of traditional beer in Belgium, he decided that it was time for a craft beer brand “Imagined in India” for the urban, millennial consumer, and created Bira 91.

Bira 91 launched in early 2015 with a flavorful portfolio of essential beers and its playful monkey mascot. The brand quickly went viral in India, becoming the largest draft beer brand in the country and gaining leadership in the premium segment in its active markets. In 2017 Bira 91 began its campaign in the United States in New York. And in 2018 the brand started on its wider expansion in the Asia-Pacific market by entering Singapore.

In less than three years Bira 91 became one of the top 25 craft beer brands worldwide by sales volume, and is “the fastest growing beer brand in the world, growing five times in 2017,” according to Jain.

In late 2015 B9 Beverages raised a round of investment from the Silicon Valley-based venture firm Sequoia Capital, making it the fund’s first investment in a beer company globally. In 2018 Belgium’s Sofina Capital made an additional investment in Bira 91, bringing the total capital raised by the company to more than \$100 million.

A fellow of the Disruptor Foundation, Jain was included in *Fortune India’s* 40 Under 40 (2016, 2018, and 2019); *GQ India’s* 50 Most Influential Young Indian Innovators (2016); and in *The Economic Times’s* Hottest Business Leaders (2018). He has been invited to speak at various industry forums including the 2018 Milken Institute Global Conference.

Student Speaker

Priscilla Akpabio

Candidate for the Degree of Bachelor of Science in Mechanical Engineering

As a young girl growing up in Nigeria, Priscilla Akpabio says that she spent a lot of time with her father and bonded with him over their love of technology. He enjoyed reading vehicle and household gadget fix-it manuals and then shared much of the information with his inquisitive daughter.

“He taught me to read engineering drawings, showed me how to change the spark plug in our backup generator, and always had me at his side as an apprentice handing him tools,” says Akpabio. “I remember tagging along on our trips to the mechanic; we discussed whatever he learned on our way home. He had an innovative and curious mind that inspired me and made me want to understand how things really worked.”

Akpabio visited Chicago during high school and fell in love with the city, so her parents allowed her to attend college here. She transferred to Illinois Institute of Technology from Harold Washington College, where she earned an associate degree in engineering science and became a vice president of the Mu Pi Chapter of the Phi Theta Kappa Honor Society.

At Illinois Tech Akpabio has worked as a peer career coach for the Office of Career Services, advising fellow students on one of the most important aspects of their university experience: finding a job. She has served as a senator of the Illinois Tech chapter of the National Society of Black Engineers and is also a member of the American Society of Mechanical Engineers, the Society of Women Engineers, and the Society of Hispanic Professional Engineers. Last year she had a co-op with Cummins Inc., where her projects included serving as a project manager for the repair of a test electric vehicle.

A recipient of the Illinois Region of Phi Theta Kappa Hall of Honor Officer Award, Akpabio was also on the Dean’s List in fall 2020. Her community service includes volunteering for both the Saint Columbus Church Soup Kitchen and the Greater Chicago Food Depository. While her father served to inspire her, Akpabio looks forward to one day mentoring other women in the science, technology, engineering, and mathematics disciplines.

Honorary Degree Recipient

Fay Clayton (LAW '78)

Honorary Doctor of Law, honoris causa

Fay Clayton (LAW '78) was most recently a partner at the majority-women litigation firm Robinson Curley & Clayton, which she co-founded in 1989.

After graduating from the inaugural class of New College of Florida, Clayton moved to Ankara, Turkey, where she began her family. Three children later, she was working as a Montessori teacher in a co-operative preschool in Chicago's South Shore community and began taking evening courses at Chicago-Kent College of Law. At Chicago-Kent, she was active in a center focused on providing legal services as well as in moot court events.

Clayton's passion for women's rights began making itself apparent when she successfully convinced Chicago-Kent administration to convert one of two men's restrooms on the third floor of the law school into a women's restroom.

After graduating first and with honors in her law school class, Clayton joined Sachnoff & Weaver and was made a partner in 1982. She then joined the firm that is now Miner, Barnhill & Galland, before establishing Robinson Curley & Clayton with two colleagues. While working at her law firm in 1993, Clayton gained recognition as head counsel for the National Organization for Women in its ongoing case against a coalition of anti-abortion groups. Her arguments before the Supreme Court of the United States (*NOW v. Scheidler*) resulted in the court ruling that organizations such as NOW could file lawsuits against abortion protestors under the Racketeer Influenced and Corrupt Organizations Act.

Besides women's rights, Clayton's expert areas of litigation included high-stakes commercial matters, race discrimination, religious liberties, and LGBT issues. She retired from practice in 2016 and lives in Evanston, Illinois, with her husband, Lowell Sachnoff.

Honorary Degree Recipient

Arlene Harris

Honorary Doctor of Engineering and Design, honoris causa

Arlene Harris—telecommunications entrepreneur, inventor, investor, and policy advocate—is co-founder of a number of communications companies, along with her husband and business partner, Illinois Institute of Technology Hall of Fame honoree Martin “Marty” Cooper (EE ’50, M.S. ’57). Harris is president and co-founder of Dyna LLC, an incubator for startup and early-stage organizations historically in the wireless technology field, which the couple founded in 1986 as a home base for their developmental and support activities. Dyna LLC then launched its companies Subscriber Computing Inc., Cellular Pay Phone Inc., SOS Wireless Communications, and Accessible Wireless. In the most impactful innovation of her career, Harris drove Subscriber Computing to create the first technology to enable prepaid cellular services—a technology that opened the cellular revolution to billions of credit-challenged consumers. Later, SOS and Accessible became the foundation for GreatCall.

Consumers may be most familiar with GreatCall for its Jitterbug phone. Harris led GreatCall from the idea, through development and commercialization of this important offering, which was designed to provide wireless cellular access to less-tech-savvy customers, primarily senior citizens. Jitterbug was distinguished with several awards, including being named the *New York Times* Top 10 List of greatest technology ideas of 2006, and in 2007 *Reader’s Digest* included the phone as one of its Top 100 Products. Best Buy Co., Inc. acquired GreatCall in 2018.

Encouraged by Cooper, who is widely known as the “father of the cell phone,” Harris is an acknowledged telecommunications industry pioneer in her own right. She began her career at age 12 as a mobile telephone switchboard operator for her family’s business, Industrial Communications Systems. Referred to as the “first lady of wireless,” in 2007 she became the first woman inductee of the Wireless Hall of Fame, and in 2017 she was named to the Consumer Technology Hall of Fame. Harris holds several patents, and was a founding member of many early cellular industry organizations as well as being co-founder and board member of the Wireless History Foundation, a nonprofit organization formed to preserve and promote the history of the wireless industry.

Harris is now in the founding stages of the new startup Wrethink, a high-tech fixed broadband company focused on consumer privacy and on helping families use technology to organize and manage personal information. She serves on the Board of Advisors of Illinois Tech’s Stuart School of Business and the Institute of Design.

Honorary Degree Recipient

John L. Anderson

Honorary Doctor of Engineering, honoris causa

John L. Anderson is President Emeritus of Illinois Institute of Technology, having served as the eighth president from 2007 to 2015. He currently serves as president of the National Academy of Engineering (NAE), a private, independent, nonprofit institution that provides engineering leadership in service to the nation.

A native of Wilmington, Delaware, Anderson received his undergraduate degree from the University of Delaware in 1967 and Ph.D. degree from the University of Illinois at Urbana-Champaign in 1971, both in chemical engineering. He began his academic career at Cornell University, where he served as an assistant professor of chemical engineering from 1971 to 1976. He then spent the next 28 years at Carnegie Mellon University, including eight years as dean of the College of Engineering and 11 years as head of the Department of Chemical Engineering. Before joining Illinois Tech, Anderson was provost and executive vice president at Case Western Reserve University.

Under Anderson's tenure as Illinois Tech president, student enrollment significantly increased, with students from more than 100 countries attending the university. Fifteen new endowed professorships were added and the then-fundraising campaign, *Fueling Innovation*, was launched, bringing in more than \$170 million to support endowed professorships, scholarships, and new academic facilities. He brought the annual commencement ceremony back to Illinois Tech's Mies Campus in 2008.

Anderson was elected as an NAE member in 1992 for contributions to the understanding of colloidal hydrodynamics and membrane transport phenomena; in 2015 he also was elected as an NAE councillor. A fellow of the American Academy of Arts and Sciences as well as of the American Association for the Advancement of Science, Anderson is the recipient of numerous other honors. Among his more recent awards was his presidential appointment to the National Science Board (2014–2020), the National Engineering Award from the American Association of Engineering Societies, and inclusion on the Alumni Wall of Fame at the University of Delaware.

Order of Exercises

Welcome

Alan W. Cramb
President

Essential Staff Recognition Video

A video celebrating and thanking the essential staff of Illinois Tech

Congratulatory Remarks

Michael P. Galvin (LAW '78)
Chairman, Illinois Tech Board of Trustees
President, Galvin Enterprises, Inc.

Farewell to the President

A video celebrating and thanking Alan W. Cramb on the occasion of his retirement

Commencement Address

Ankur Jain (CS '03)

The Conferring of Honorary Degrees

Michael P. Galvin

Peter Kilpatrick
Provost and Senior Vice President for Academic Affairs

Honorary degree recipients are recognized for their commitment to commerce, science, technology, innovation, and the betterment of global society.

Fay Clayton (LAW '78)

Honorary Doctor of Law, honoris causa, for outstanding contributions to ensure that all people receive a just outcome

Arlene Harris

Honorary Doctor of Engineering and Design, honoris causa, for outstanding leadership, entrepreneurial ability, and contributions to the telecommunications industry and profession

John L. Anderson

Honorary Doctor of Engineering, honoris causa, for outstanding leadership in the engineering profession

Congratulatory Remarks

Peter Kilpatrick

Faculty and Staff Congratulations Video

A collection of videos submitted by Illinois Tech faculty and staff honoring this year's graduates

Alumni Association Board Speaker

Sherrie Littlejohn (M.S. CS '82)
Chair, Illinois Tech Alumni Association Board of Directors
Trustee, Illinois Tech

Student Speaker

Priscilla Akpabio, Candidate for the Degree of Bachelor of Science in Mechanical Engineering

The Conferring of Bachelor's and Master's Degrees

Alan W. Cramb

Bachelor's and master's degree candidates will be presented by Provost Peter Kilpatrick.

The Conferring of the Juris Doctor

Alan W. Cramb

Juris Doctor candidates will be presented by Provost Peter Kilpatrick.

The Conferring of Ph.D. Degrees

Alan W. Cramb

Ph.D. candidates will be presented by Provost Peter Kilpatrick.

Dean Congratulations Video

A video featuring the deans of Illinois Tech honoring this year's graduates

Student Congratulations Video

A collection of videos submitted by Illinois Tech 2020–2021 graduates honoring this year's graduates

Congratulatory Remarks

Nicholas Menhart
Chair, University Faculty Council
Associate Professor of Biology

Closing Remarks

Alan W. Cramb

Congratulations to Graduating President's Student Advisory Council Members

*President Cramb appreciates the contributions of the President's Student Advisory Council
and extends congratulations to its members graduating today:*

Derek Bostick (Bachelor of Science in Computer Science / Master of Computer Science),

Wofai Ewa (Bachelor of Science in Mechanical Engineering),

Alexander Kern (Bachelor of Science in Chemical Engineering),

Heather Pecho (Bachelor of Science in Chemical Engineering / Master of Environmental Engineering),

Lukas Proffen (Bachelor of Science in Digital Humanities),

Justin Tringl

(Bachelor of Science in Architectural Engineering / Master of Engineering in Construction Engineering and Management),

Natalia Gielczowski (Bachelor of Science in Chemical Engineering / Master of Environmental Engineering), and

Jiani Sapathy (Master of Design / Master of Business Administration).

Degree Candidates

The remainder of this program lists the names of expected degree candidates and honor recipients, which will be officially awarded only upon verification that all relevant requirements have been met. Due to COVID-19 related constraints, verification is expected to be completed on or before Saturday, May 22, 2021.

Doctor of Philosophy Degree Candidates

Presentation of Candidates for the Degree of Doctor of Philosophy

Peter Kilpatrick, Provost and Senior Vice President for Academic Affairs

Armour College of Engineering

Doctor of Philosophy in Architectural Engineering

Akram Syed Ali

MASTER'S DEGREE CANDIDATES

*Master of Engineering in Mechanical
and Aerospace Engineering*

Omar Z. Abuosbie
Ashit Samirbhai Amin
Ayesha Anees
Katja Berthold
Kamil Joseph Bigos
Zachary James Bonson
Julia Marie Briden
Ricardo Bustillo Gutierrez De Pineres
Ardrenae Danelle Cook
Jennifer Ashley Coss
Purushottam Deshmukh
Christopher Jae Dickson
Qinze Fan
Cole T. Fasnacht
Marawan Moanes Ghazali
Madison Brooke Harris
Theodore Nicholas Howell
Justin Johnson
Megan Johnson
Sydney Devan Kaplan
George Koshy
Xinran Luo
Katherine Lauren McCutcheon
Abeer Naeem
Aditya Jagannath Naik
Sardorbek Nazarov
Prathik Nirmal Jain
Shannon M. O'Donnell
Michael Ogiela
Roshan Pandit
Harnik Hareshkumar Patel
Nand Devendrabhai Patel
Edi Qendro
Roopa Rajesh
Levin Songco Rosete
Nicholas Andrew Sadowski
Amanda Michelle Simran Sathiaraj
Diego Alfonz Deleon Serapio
Sagar Sanjay Shelar
Igor Shvytov
Pavan Krishna Siddarampuram Karnam
Thomas Matthew Spillman
Fei Sun
Benjamin Thrun
Michael A. Tokarz
Brian J. Touhy
Carsten Brett Wahl
Mikel Joshua Woo
Yuchen Xiong
John Eugene Zalewski Jr.

*Master of Engineering in
Structural Engineering*

Daoud Abbasi
Meyahueltzin Esmeralda Angeles
George R. Beck
Jacob Nicholas Behnke
Calvin Russell Graham
Zachary Patrick Haney
Irvin Uriel Ortiz
Harmane Quddus

*Master of Engineering in
Transportation Engineering*

Jingting Qiu
Chandrapal Suyeeba Yadav
Ming Yang
Yimin Yang

Master of Pharmaceutical Engineering

Gabrielle Collins
Tejaswini Ramakrishna Hegde
Ogechi Chinenye Okocha Rufus

Master of Power Engineering

Bright Frimpong-Duah
Justin Aaron Kulp

Master of Public Works

Paul Raymond Jacobs

*Master of Science in
Architectural Engineering*

Mingyu Wang

*Master of Science in
Chemical Engineering*

Mohammed Abdulmatlub Alyoubi
Abdulazez Saad Alzhrani
Abdullah Mohammed A. Asiri
Dongyue Chen
Hung-Ching Lee
Shibeike Yu

MASTER'S DEGREE CANDIDATES

Master of Science in Civil Engineering

Mo'men Munther Yousef Alkufahy
Lakshmi Satya Bavya Bolisetty
Xiaochen Gao
Mihir Prakashbhai Patel
Farshad Rajeei
Da You
Yu Zhao

*Master of Science in
Computer Engineering*

Muhmin Abdeljaber
Sharan Bommalapura Lokeshwara
Annabella Chong
Michael David Douros
Mikhail Gromov
Michael Jiezhao Hu
Nathan Mark
Aaron M. Porter
Guangqi Sun
Samhita Tripuraneni
Avaneesh Ujire Ganesh Krishna Bhat
Nicholas Velcich
Xingjie Xu

*Master of Science in
Electrical Engineering*

Sarah Adetomike Temiloluwa Adeyemi
Kessen M. Barrett
Naikuan Chen
Phanimithra Gangalakurti
Changhwan Hong
Priya Kakarla Naga Lakshmi
Al P. Kwiatkowski
Zong-Ru Lee
Alexander Messina
Parmita Mondal
Jeja Lina Mui Wu
